On the receipt of this letter, Senator Johnion, all the avenues of redress being closed, communicated to the National Intelligencer the letters published above, with the following note to the Edilors: BALTIMORE, Oct. 10, 1864.

To the Editors of the National Intelligencer: GENTLAMEN: The papers you receive with hls (and which von will do me the favor to nblish), speak for themselves, telling a story that no American citizen worthy of the name will read hat with deep regret.

Of the many outrages of like character perpetrated under the authority of the President or with his approval, the suppression of the Evening Post is the most flagrant. The cause asby Mr. Joshus M. Bosley, one of the proprietors signed, if true, is a sad exhibition of the power ion, having arrayed in its support hundreds of General of the President's support, having several thousand soldiers subject to his orders, has not the power, he tells us, to prevent the suppression of a paper by mob violence; and the whose property and rights as freemen, he was rspectful letters sell clting his interference.

A citizen, qualified to vote, and whose loyalty cannot be "disproved by other testimony," is to be required to swear, fir t, that he "will hence forth support the Constitution of the United States, and defend it against all enemies." This obligation we are willing to renew daily. But this is not yet decread a sufficient test of loyalty. He is required to make oath and subscribe to a mass of vain repetitions concerning his activity as a friend of the Union and the enemy of its enemle—enemering his desires, his hopes, and fear—end into the holds it in his heart to rejoice over the scenes of blood, and of wounds, and of anguish and death, wherein his friends, his kindred, his loved ones are alian, or maimed, or mede prisoners of war—whereby the land of his birth or adoption is made desolate, and hamentation and mourning are spread over the whole nation. While all the Urilized world stands birth or adoption is made desolate, and lamentation and mourning are spread over the whole
nation. While all the civilized world stands
aghast in contemplation of the unequalled horrors of our tremendom strife, the citizen of
Tennessee is called upon by her Military
Governor, under your authority, to swear
that in these things be finds occasion to rejuice! As if this were still not enough, the
eithern is further required to swear to the indefinite prolongation of this war, as follows: 'That
I will cordially oppose all armistices or negotivitions for peace with rebels in arms until the Constitution of the United States, and all laws and
proclamations made in pursuance thereof, shall
be established uver all the people of every State

If the President of the United States may "manage his side of this contest" by setting aside the very letter of the Constitution and altering the elective laws of the States so as to disfranchise his opponents, liberty is already dead.

To this plala and truthful statement we at present have nothing to add. And thus the freedom of election is suppressed definitively in Tennessee. God graut, that, when the ides of November have passed, we may not have to exclaim that thus freedom itself le suppressed definitively in every State of the Republic. Friends of the I'nion and of liberty! If you would avert this dire result, avert the re-election of Lincoln, which, if it shall take place, will in all human probability involve the lissolution of the Union, and the extinction of liberty throughout the boundaries of the shattered government.

The Messouri Invasion. - The Et. Louis Union of Thursday has the following in regard to the rubel invasion of Microuri

to the rubel invasion of Missouri:

The reled army was encamped at Boonville three days, having entered the place about noon in Sunlay, the 5th, and 1ch on the following Wednesday. They improved the time by grinding it e wheat they stole in the county at Somtart's mill in the town. Women from the surrounding country flocted by hundreds to Boonville to see the rebet General who had come to fideliver them from Yankee tyramy," and it is so in that Price's time was so completely monopoliced by thee effects administrative had to one close could see him. Nearly all the scanty hair on his lead was shorn off and carried away as meaning the female pliggins. Licutions by the female piggins.

It is a mistake to suppose that Price has no supply train. He had with him 200 wagons, which with the nunles hanling them, were branded U.S. The release said they had captured them from Steele, in Arkansas, at various times. They are constantly seizing fresh horses wherever they go, and leaving their old ones behind. They left 400 broken down animals at Boonville.

Price has but one brigsde of good troops habis army, and that is Fagan's Arkansas men. Those commanded by Shelby, Marmaduke, and Jackman are undisciplined and becoming daily more demoralized by their pillaging and thieving operations. It is believed by those qualified to indge that Price does not intend to fight if he can avoid it. This view is supported by his refusal to stlack Jefferson City, and by his fall-nre to halt on good fighting ground on hal line of march, and give hattle to our cavalry. There seems to be little or no prospect of our commanders ever bringing him to a general engagement, as his forces being all monnted, and subsisting chiefly on the country, are able to keep fifty or a hundred niles ahead of our troops, who are compelled to take large trains along to carry the supplies they cannot procure in the despoiled country.

THE FIGHT AT OWENSVILLE.-A despatch of the 20th makes a mistake in the name of the Henry Withrow, charged with stealing a horse commander and in the number of the regiment cugaged in the fight with Jesse, near Owensville. Captain Belden, of the 1st Kentucky cavalry, with about forty men, charged the rebel command, some two hundred strong, and drove them in disorder for some distance, killing | Fined \$5. eight, wounding many, and capturing teu. Lieut, Dobson was thrown from his horse, but has come in. Belden lost one killed and six wonuded; and having exhausted his ammunition, returned to Owensville. The old 1st Kentucky will be mustered out of the service on the 28th of this month, at Monut Sterling. Major Keene, who commanded the hattalion, which defeated the rebels at Pound Gap, and captured a piece of artillery, two hundred stand of arms, and some twenty prisoners, has been offered a promotion for his gallantry. The battalion was empesed of men and officers of the 1st and 3d | Held in \$100 for one month. Kertucky, and achieved a complete success against va-tly superior numbers, capturing the enemy's position and artillary, and ronting them. Major Keene had no artillery, and only about two hundred and fifty men. The old "Wolford avalry" maintains its gallantry and glory to

We have been informed that the rupui train between the city and the Woodlan'n e is necessarily irregular, caused, in a measure, by the nearness of the route to the and the large number of cattle usually found upon the track. When the road is clear of all o' structions, the speed of the engine is more regular, and the trip between the two points can be made ten minutes earlier than on other occasions. If the engineer has been acting under the orders of a clique of eager betters ou the train, we are assured that the fact iras not known to the management, and all cause of midaint, as far as it is within their power will be removed. Mr. Chas. A. Clarke, the efficient superintendent of the telegraph and train despatches on the road, has been officiating as conductor on the Woodlawn train, aud uo one for a moment can suspect him of ever having been in sympathy with the clique, much less of assisting them in carrylug out their scheme.

REBEL PRISONERS .- The Nashville train yesterday afternoon brought up a large number of rebel prisoners from the frout. Among the Iot were nine commissioned officers, one hundred and eighty-one enlisted men, fire deserters, and four citizens charged with being active rebel sympathizers. The prisoners of war will be forwarded to Northern camps, and the deserters and citizens released north of the Offio river on parole not to return during the war. arters from the robal army an

itizens charged with disloyalty, were received by the Lexington train. The citizens claim to be foreigners. Capt. Jones will investigate their claims, and probably will release them north of the Ohio rlver. REDEL DESERTER .- Hugh Bell, supposed to

be a deserter from the rebel army, was arrested the city yesterday. He was found loafing about the streets, enjoying himself hugely, and os much surprised when the military police c a grah for him. He was seut to prison to t an investigation of his case. There is no partienlar harm in being a rebel deserter, providing that an individual proves himself as such by reporting to the proper authorities as soon as he arrives within the Federal lines; but when reaching onr rear by stealth, and being found in disgnise, the offence becomes a grave one-nothng less than that of acting in the capacity of a y for the enemy.

A . Redel Uniform .- A brar-new Confederate uniform was restorday surprised and captured in the establishment of Mr. J. F. Griffin, on the corner of First and Market streets. The uniform had just been finished by Mr. Griffin, and was ready for shipment to the southern part of the State, when the military police discovered the fact. Mr. G. was arrested and sent to the Barracks prison to await trial. The uniform was conficuted and is now in the possession of the Provost Marshal. If there is a rebelline officer in the State of Kentucky much in need of a bran-new outlit, we would advise him to call, prove property, settle charges, and claim

SENT TO THE FOUTIVICATIONS .- Conrad Crnft was arrested yesterday, charged with being engaged Vin a riotous proceeding on Saturday ululit last, and sentenced to labor on the fortifications for thirty days. George Rollingson was arrested, arraigned before the Provost Marshal, and found guilty of aiding a deserter to escan from the officers attempting to effect his arre ; This was considered a grave offence, and George was sent to the fortifications to devote his tin c and labor to the Interests of the city and the Gorernment for a period of ninety; days. A

TD.-W. R. Darnell, Fidella Warren, and Jake Edwards, notorious guerilla desperadoes and murderers, on Wednesday night succeeded in making their escape from the Military Prison in this city, and are still at large. The sconndrels n in session at the Conrt-hon e, but their escape relieves that body of some of its work, and cheats justice ont of her dues. It is to be regretted, that prisoners charged with such grave offences are not more securely guarded, and every possl-

NEW CHIFF OF POLICE.-Lieutenant T. S. Lukens, of the 23d Keutucky volunteers, who for some months has officiated as Assistant Provost Marshal of the city, was yesterday appointed chief of the military police. He is a good officer, is experienced in the business, is trusty, and will conduct the department with credit to himself and the Government. To BE TRIED .- George W. Cravens was

arrested at Elkton, Ky., in the early part of July last, charged with being connected with a guerilla band. He was brought to this city and confined in the Military Prison, where he has remained ever since. He will be sent to ngton today, to he tried before the military ission in acsaiou there.

VIOLATING AN ORDER.—Michael Carney, proprietor of a one-horse drinking-saloon, on Market street, violated an order resterday, by selling whiskey to soldiers, was arrested, tried before the Provist Marshal, found guilty, and sentenced to be confined in the Barraeks Prison for twelve days. A bad day's work for Michael.

RILEASED ON OATH.-Adam Brose, a resident of Loniville, was a rested in the city on Thursday night, charged with giving atterance to seditious language. He was arraigned before the Provost Marshal vesteresy morning and discharged from custody by sub-cribing to the oath of alle

ost his discharge papers on Saturday. The finder will do a kindness by leaving the

On Sunday we learned that about forty were at Cardsville, and on Monday nineteen crossed Yellow Creek Bridge, live miles from this place. Their object is evidently not plunder, as they take nothing but what is necessary for their wants. No Federal force to encounter, they pass their days in quietness, living on the fat of the land. An "intelligent contraband" now and then brings in a report of their approach to our city, but as yet they have not taken possession. The twitching of the nerves of some of our citizens is all the effect it produces, with the concealing of a watch occasionally, for fear they may be of that trile that delight to relieve the citizens of such valuables. guishing the fire, and but little damage was itizeus of such valuables. "Reliable" not an Americanism .- The new Independent recently gave the following exposition of the dehateshle word "reliable:" "Reliable"-a new word, utterly indefensible

Relable—a new word, atterny independence. Rely is neuter or impassive, and requires on or upon to complete it. Relionable or reliaponable would be logical; but we have trustworthy, reracious, credible, and need no such word as reli-A correspondent of that paper, however, comments upon the criticism in this way:

"Trustworthy"—worthy of trust "Credible"—worthy of eredence "Reliable"—worthy of reliance. So that the last has the excuse, or "defence," of exact analogy in formation and significance with credible—but dropping the final syllable and adding a similar allix, to imply the same change in the meaning of the root.

All new things are not Americanisms a all Americanisms are not utterly interforbible. Americanisms are not utterly incidensil A correspondent of the New York Post sava the Editor of the Independent leaves the fallacy unexposed, and it may mislead others who are as innocent of grammar as his correspondent. A reference to dictionaries within the reach of almost any one who writes for the press, will show always from transitive or active verbs. A few to-day. It is more important, however, to correct the notice that the ill-made word under criticism is an Americani m. Our folk are apt to take meekly for granted the sneers of the English Jeuny-n-liners about the corruption of the moth ev tongue in this country. For this kind of defamation take the colums of the English daily and weekly press, passim, and the pages of the quarterlies, and the speeches of the Parllamenteers. The last Edinburgh Review, in an artleles exposing the abuse of the language by English writers, a caks of "the slang and cant phrases of Americans and Australians (!) tendlng to find their way back to England." Doan Alford, in Lis "Stray Notes on Speaking and Spelling," exclaims: "Look at the process of deterioration which our Queen's English has undergone at the hands of the Americans." people against these sweeping charges; but the timid may assure themselves that the rouring of the lion is simply "extempore-for it is nothing hut roaring." Let them not fear, when this "fearful wild fowl" doth "aggravate his voice so," for it is only "Sung the joiner," after all. The fact is, that in no part of the world is the English language so earefully written and spoken as by the educated men and women in America. Indeed, the average use of English is purer here than In England. This bastard word, reliable, is itself English horn. It was first used either by Sir Robert Peel, or one of the reviews (probably two prominent magazines in Great Britain, against analogy, propriety, and good trage with a pertinacity that has induced Dr. Worcester to temark that "it has the sanction of some highly re pectal le authorities;" though he adds, "that it is ill-formed, and cannot have the signification in which it is always used."

ROMB AND ITS RUINS .- Mr. Arn dd's Earope an Mc aic says it is with no ordinary feelings that the traveller locks for the first time upon learning, eloquence lave irradiated them. One ceases to marvel that Luther threw himself prostrate ni on the ground at the sight, and exclaimed with enthus ism: "Hail sacred Rome! our respect and admiration; her present excites our sympathy and our love.

Says Winckelman-"All is na ight I had thoroughly studied everything; and behold, when I came thither, I saw that I knew nothing. Rome is, I believe, the high school of the whole world, and I, too, have been tried and refined." In the language of Goethe, "Out of Rome, no one can have an idea how one is schooled in Rome. One must, so to speak, be new born. He looks back on his earlier notions as one does on the little shoes that fitted him when a child. The most ordinary man learns something here; he gains at least one common idea, even though it should never past into his whole being."

Though Rome be now in human estate, who does not look forward with a sanguine hope of her regeneration? Yes, we feel that it must be so. The Niobe of rations shall yet east aside morning drapery with which she has so long striven to shield her offspring from the shafts of decay. She shall yet smile through the stupefaction of her grief, and fling from her that empty nrn which betokens her childless widow-We look earnestly for the time when she shall stretch forth her all-embracing arms, and welcome new children to her breast. Then shall thrifty and happy sous rise up and call her blessed, and her daughters be honored through the land.

Good-By .- This, a writer in the New Orleans Delta says, bears a heavy burden on its wings. It is freighted with sighs and tears and trembing ips. We breathe it in woe and it tells you s We tighten the clasp over our hearts that with anguish they may not break. There is some thing so real in its sound, so much more lutens than any other word of parting. It says jus what we mean and nothing more, when uought else may he said.

And the inestimable blessing is, that the most poignan sorrow has fled before the morrow of life. The human heart is very clastic and rarely breaks. This is one of life's great truths. We learn it in our Infancy, almost, that the light of to-morrow will clear up the mists of to-day. It is as it should be. Life is too earnest to be long bowed in selfish grief, and incapable of enjoyment of what is still vonchsafed us. "Tired Nature's sweet restorer, balmy sleep," steals over our scuses, and earesses us to forgetfulness as we write "good night" to the world, and "pleasaut

THE CAPITAL OF TRALY .- The Philadelphia North American says, in the determination to make Florence the capital of Italy, the American reader may perecive the expla, ation of the cent formidable riots in Turin, whose people ne naturally loath to part with what has made ir city world-renowned, and given it wealth. is only sharing the fate which long since befel Milan, Mantua, Venice, Florence, Naples, Genoa, Ferarra, etc. Italy is indeed a land of splendid cities, each having a history worth lingering over, and a legacy of architectural grandeur to attest the glories of the past. Any one of these heautiful places would be a noble capital for Italy, but now that the peninsula is a unitary State, it needs a ceutral capital, and, fuil

It has long been a favorite residence of English and Americans, on account of the cheapness of living and the leanty of the publi, and private editions and galleries of art. With the advent of a national government there for twenty-three millions of realle, it will soon, however, he crowded, and the possessor of such inc timable art galleries. Florence is indeed fit to be the capital of Italy, at least until the eternal city can be obtained,

which seems very distant. Under the vigerous and enlighten, I swar of il chonce of Savoy, Turin had been converted into a city of no mean consequence, central'zing within itself the industry, trade, and com-

then ever they were before. Put Turin can bear no comparison in point of attraction to Florence. The formula bore the air of the capital of a n or State. The latter less an imperial splendor and renown worthy of the now ri en fortunes of Italy. It needs only the presence of the national government, with its patronage and business, to infuse new energy into its people. It has radway communication with Leghorn, Lucca, Pisa, and Siena, but of course, as the capital of Italy, it must extend its railway arms all over the peninsula. When that shall have been completed, it will become one of the first cities in the world, and its rising greatuess and grandeur will even overshadow

and celip e Rome. THE CHISESE REBRILION.-The New York Naul in fell into the liands of the party of China, and already the English, who have given aid to the Imperialists, are discussing the propricty of withdrawing their intervention. The London Times decidedly favors the termintion of the alliance of arms. As to Naukin itself, it will be opened to trade. Though not named in the English treaty, the sixth article of the French stigulates that French subjects as soon as it was recovered from the rebels; and, under the "most favored nation" clause in the treaties with England and America, subjects of those counties will enjoy the same privilege. The rose is said to be given by Hypocrates to the god of silence, to engage him to conceal the inlecoming conduct of his mother, Venus; and ience it was made symbol of silence. A rose was always placed above the guest, in a hau neting hall, to banish restraint, and to denote hat nothing said there should be repeated else where; and hence originated the saying sub rosus, where a secret was to be kept.

Rhodes is thought to owe Its name to the Immense number of roses it produced. At Salreay, in France, a curious festival is kept up, called the festival of roses. A young girl is seletted from among three of the most distinguished for female virtues. Her name is an nounced from the pulpit. She is afterwards onducted to attend the vesper service. She was formerly accustomed to open the ball at night with the signor; now a present is hestowed Cheap Indiana Lands for Sule for Cuah oon her, and she is called la rosiere, because he is always adorned with roses. The perfums of the delicious flower is thus accounted for hy the fabulous authors: "Love at a feast at Olym- | Ohlo river, is affored for sale in tracts of 63 to 239 pus, in the midst of a lively dance, overset by a reces, at 85 ag gove cont. Att of this land was borg't stroke of his wing, a goliet of nectar, which, from the Government within the last twenty and this falling on a role, embalmed it with its rich fragrance, which it still contains."

THE BACK-WATER OF CRIME.-Lord Macan. ay's long-expected New Zealander, who is to it on the ruins of London Bridge, and sketel the crurhling dome of St. Paul's Church, might be ordering his wife to pack his carpet-bag Australia leads the return of the Antipodes up the inctropolis, and is already agitating th question of the ways and means of sending had ctv cen the Apocalypse and the events recorded | her! NEGROSS AND REAL ESPARN.-The following orders of Brig.-Gen. Brayman, at Natchez, will e found quite interesting and important: The large number of unemployed and vagrant egroes living within the limits of the elly of Natchez renders it neces any that stringent orders be put into effect for their removal.

Hereafter no colored people will be permitted some legitimate employment, that will support themselves and all dependent upon their labor, and ensure the government from any burden in supplying them in food and clothing. by the Post Superintendent of Freedmen, and all others will be removed to the corral or some other place of labor or asylum. other place of labor or asylum.
